MISSION
To provide excellence in access and support to diverse and inspiring learners who will challenge the present and enrich the future.

VISION

STUDENT CENTERED
Our students are our priority in all that we do. We provide excellent service to all our students from prospects to alumni. We pursue opportunities to further improve and support the diversity of our student experiences, and identify initiatives to improve student accessibility.
We proactively seek student input to inform our actions on initiatives which will meet their needs throughout the various stages of their educational journey.

COLLABORATIVE PARTNER
Together, we seek to understand the strategic goals and initiatives of our partners across campus.
We are deliberate in our engagement efforts by listening, learning, and co-creating with our partners to increase efficiencies.
We are thoughtful communicators who build deep and sustainable relationships that add to our shared vision to enhance the student experience.

TEAM ORIENTED
We are guided by clearly articulated goals that allow each of us to understand our role within the organization and feel acknowledged for the value we bring.
We leverage the strengths of each team member, support talent development, and purposefully create opportunities for increased collaboration.

DIVERSITY CHAMPION
Our actions to welcome and understand diverse identities and experiences are intentional, as we gain from and value unique perspectives.
We appreciate the individuality of every student and team member, and develop strategies to embrace diverse perspectives and foster greater inclusion.
We push the boundaries of the status quo, always evolving and learning, ever striving to expand and support diversity in new and creative ways.

INNOVATION LEADER
We embrace an innovative mindset that encourages our team to practice forward thinking, propose creative solutions, and grow from our experiences.
We foster innovation through cross-organizational education, collaboration, and by challenging the present to broaden our individual perspectives.

VALUES

SERVICE EXCELLENCE
INTEGRITY (TRUST/RESPECT)
COMMUNICATION
TRANSPARENCY
DIVERSITY, EQUITY & INCLUSION
WELL-BEING
STUDENTS
We will expand access and support for our student populations...
...by focusing on their overall success from start to finish, making incremental improvements to our student processes and working with our campus partners to create greater strategic consistency.

A) Improve the transfer student experience
B) Continuously evolve programming for our new students to meet changing needs
C) Expand summer programming to increase access and campus utilization
D) Assess and align the financial aid allocation strategy with university goals
E) Continue to align the enrollment strategy with current university priorities.
F) Leverage the student success taskforce work to drive institutional change
G) Assess and prioritize student-facing processes to provide better access to information and better user experience

PARTNERS
We will be leaders and partners across campus and nationally for student enrollment and success...
...by being the “go-to” for information, and developing strong and strategic relationships to advance the university and higher-education mission.

A) Lead efforts across campus for OEM student (information technology) systems
B) Be the knowledge resource across campus for student information, data, and research related to areas of OEM accountability
C) Assess and expand upon existing OEM campus communications opportunities
D) Strengthen campus partnerships with our primary stakeholders in schools, colleges, units, and other campuses
E) Lead campus wide efforts to support curriculum development and infrastructure support related to teaching

TEAM
We will strengthen our team and be a great place to work...
...by promoting and providing continual learning opportunities, improving internal communications, and fostering greater opportunity for collaboration.

A) Support and identify increased talent development opportunities for our team
B) Develop an employee engagement plan
C) Develop and support DEI initiatives
D) Leverage the U-M ability to lead nationally by being well represented where we are able to impact and influence policy associated with OEM

PROCESS
We will enhance our organizational effectiveness through continuous improvement...
...by being deliberate in our planning, and seeking opportunities for process improvements, and improved efficiencies.

A) Develop an OEM budget and space allocation plan that is in alignment with our strategy
B) Identify opportunities for process efficiencies and prioritize based on our strategy
C) Respond to COVID-19 emerging issues.
